Regarding direct payment or Ioans: Personal notes for loan without interest and with renewal privilege are suggested, as a means actress, to deny today that she is of inculcating a sense of responsiviolinist bility in individuals. Records of all aid cases are kept on file.

The aim is to prevent duplication of effort, and check is made to ascertain what, if any, aid is likely from some other source, doing a specific form of aid work.

Others who spoke briefly on the work being done by the committee were Dr. A. C. Gifford, Dr. Charles F. Bennke and Joseph Kronzer. Mr. Kronzer emphasized that some times the need is not for medical or dental care, but for guidance. He said Kiwanians should consider the opportunity of serving as "big brothers" to those who can be
